Account Valuation

Account values are computed by adding (1) the market value of all priced positions, (2) valuations utilizing industry service providers and/or outside custodians for other positions, and (3) adding any credit or subtracting any debit to your closing Cash, Money Market Funds and/or Deposit balance. Cash, Deposits and Money Market Funds are displayed on a settlement date basis, and other positions are displayed in your account on a trade date basis. The values of fixed income positions in summary displays include accrued interest in the totals. In the "Holdings" section, fixed income market value and accrued interest are also displayed in separate columns. Accrued interest is the interest earned but not yet paid on the bond since its last interest payment. In most cases, it is calculated from the date of the last coupon payment (or "dated date") through the closing date of the statement. Foreign Currency Deposits are reflected in U.S. dollars as of the statement end date. The Annual Percentage Yield (APY) for deposits represents the applicable rate in effect for your deposits at the statement ending date. This APY may be different than the APY that was in effect during the statement period. For current Bank Deposit or Money Market Fund yields, go to

www.morganstanley.com/wealth-investmentstrategies/ratemonitor.html.

Additional Retirement Account Information

Tax-qualified account contributions are subject to IRS eligibility rules

and regulations. The Contributions and Distributions information in this statement reflects information for a particular account, without reference to any other account, and is based on information provided by you. The deductibility of an individual contribution depends upon your Modified Adjusted Gross Income and coverage by a retirement plan at work. Check with your tax advisor to verify how much you can contribute, if the contribution will be tax deductible, and if special rules apply. The information included in this statement is not intended to constitute tax, legal or accounting advice. Contact us if any of this information is incorrect.

Availability of Free Credit Balances and Financial Statements

Under the customer protection rules of the SEC [17 CFR §240.15c3-3], we may use funds comprising free credit balances carried for customer accounts here, provided that these funds are payable to customers on demand (i.e., are free of a lien or right of set-off in our favor or on behalf of some third party to whom you have given control). A financial statement of this organization is available for your personal inspection at its offices, or a copy will be mailed to you upon your written request.

Gain/(Loss) Information

Gain/(Loss) is provided for informational purposes. It is not a substitute for Internal Revenue Service (IRS) Form 1099 (on which we report cost basis for covered securities) or any other IRS tax form, and should not be used for tax preparation. Unrealized Gain/(Loss) provided on this statement is an estimate. Contact your own independent legal or tax advisor to determine the appropriate use of the Gain/(Loss) information on this statement. For more information, contact us.

Tax Reporting

Under Federal income tax law, we are required to report gross proceeds of sales (including short sales) on Form 1099-B by March 15 of the year following the calendar year of the transaction for reportable (i.e., non-retirement) accounts. For sales of certain securities acquired on or after January 1, 2011 (or applicable date for the type of security) we are also required to report cost basis and holding period. Under IRS regulations, if you have not provided us with a certification of either U.S. or foreign status on applicable Form W-9 or W-8, your accounts may be subject to either 24% back-up withholding or 30% nonresident alien withholding on payments made to your accounts.

Investment Objectives

The following is an explanation of the investment objective alternatives applicable to your account(s): Income - for investors seeking regular income with low to moderate risk to principal; Capital Appreciation - for investors seeking capital appreciation with moderate to high risk to principal; Aggressive Income - for investors seeking higher returns either as growth or as income with greater risk to principal; Speculation - for

investors seeking high profits or quick returns with considerable possibility of losing most or all of their investment.

Listed Options

Information with respect to commissions and other charges related to the execution of options transactions has been included in confirmations of such transactions previously furnished to you and such information will be made available to you promptly at your request. Promptly advise us of any material change in your investment objectives or financial situation.

Important Information if You are a Margin Customer(not available for certain retirement accounts)

If you have margin privileges, you may borrow money from us in exchange for pledging assets in your accounts as collateral. The amount you may borrow is based on the value of eligible securities in your margin accounts. If a security has eligible shares the number of shares pledged as collateral is indicated below the position. If you have a margin account, as permitted by law, we may use certain securities in your account for, among other things, settling short sales or lending the securities for short sales, for which we may receive compensation.

Margin Interest Charges

We calculate interest charges on margin loans as follows: (1) multiply the applicable margin interest rate by the daily close of business net settled debit balance, and (2) divide by 360 (days). Margin interest accrues daily throughout the month and is added to your debit balance at month-end. The month-end interest charge is the sum of the daily accrued interest calculations for the month. We add the accrued interest to your debit balance and start a new calculation each time the applicable interest rate changes and at the close of every statement month. For interest rate information, log into your account online and select your account with a Margin agreement to view more information.

Information Regarding Special Memorandum Account

If you have a Margin Account, this is a combined statement of your Margin Account and Special Memorandum Account maintained for you under Section 220.5 of Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of the Special Memorandum Account as required by Regulation T is available for your inspection at your request.

Money Market Fund (MMF) Pricing

You could lose money in MMFs. Although MMFs classified as government funds (i.e., MMFs that invest 99.5% of total assets in cash and/or securities backed by the U.S. government) and retail funds (i.e., MMFs open to natural person investors only) seek to preserve value at \$1.00 per share, they cannot guarantee they will do so. The price of other MMFs will fluctuate and when you sell shares they may be worth more or less than originally paid. MMFs may impose a fee upon sale or

Expanded Disclosures (CONTINUED)

temporarily suspend sales if liquidity falls below required minimums. During suspensions, shares would not be available for purchases, withdrawals, check writing or ATM debits. A MMF investment is not insured or guaranteed by the Federal Deposit Insurance Corporation or other government agency.

Notice Regarding Global Investment Manager Analysis

The Global Investment Manager Analysis team conducts analysis on various mutual funds and exchange-traded funds for clients holding those funds in certain investment advisory programs. If you have invested in any of these funds in another type of account, such as a brokerage account, you will not receive the same materials and status updates on the funds as we provide to investment advisory clients (including instructions on selling fund shares).

Pricing of Securities

The prices of securities are derived from various sources, and do not necessarily represent the prices at which those securities could have been bought or sold. Although we attempt to use reliable sources of information, we can offer no assurance as to their accuracy, reliability or completeness. Prices are as of the date shown only and are not an offer by us or our affiliates to purchase or sell any instrument or enter into any transaction or a commitment by us or them to make such an offer. Prices of securities not actively traded may not be available, and are indicated by N/A (not available). For additional information on how we price securities, contact us.

Important Information About Auction Rate Securities

For certain Auction Rate Securities there is no or limited liquidity. Therefore, the price(s) for these Auction Rate Securities are indicated by N/A (not available). There can be no assurance that a successful auction will occur or that a secondary market exists or will develop for a particular security.

Structured Investments Risks and Considerations

Structured Investments (Structured Products) are complex products and are subject to special risks, which may include, but are not limited to: loss of initial investment; issuer credit risk and price volatility resulting from actual or anticipated changes to issuer's and/or guarantor's credit ratings/spreads; limited or no appreciation and limits on participation in any appreciation of underlying asset(s); risks associated with the underlying asset(s); no periodic payments; call prior to maturity; early redemption fees for market linked deposits; lower interest rates and/or yield compared to conventional debt with comparable maturity; unique tax implications; limited or no secondary market; and conflicts of interest due to affiliation, compensation or other factors which could adversely affect market value or payout to investors. Investors also should consider the concentration risk of owning the related security and their total exposure to any underlying asset. Structured

Investments, which may appear in various product categories and are identified on the Position Description Details line as "Asset Class: Struct Inv," may not perform in a manner consistent with the product category where they appear, and therefore may not satisfy portfolio asset allocation needs for that category. When displayed, the accrued interest, annual income and yield for structured investments with a contingent income feature (e.g., Range Accrual Notes/Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant observation period and payment in full of all contingent interest. Actual accrued interest, annual income and yield will be dependent upon the performance of the underlying asset(s) and may be significantly lower than estimates shown. For more information on the risks and conflicts of interest related to Structured Investments, log in to Morgan Stanley Online at

www.morganstanley.com/structuredproductsrisksandconflicts. For information on risks specific to your Structured Investments, contact us.

Security Measures

This statement features several embedded security elements to safeguard its authenticity. One is a unique blue security rectangle, printed in heat-sensitive ink on the back of every page. When exposed to warmth, the color will disappear, and then reappear.

SIPC Protection

We are a member of Securities Investor Protection Corporation (SIPC), which protects securities of its customers up to \$500,000 (including \$250,000 for claims for cash). An explanatory brochure is available upon request or at www.sipc.org. Losses due to market fluctuation are not protected by SIPC and assets not held with us may not be covered by SIPC protection. To obtain information about SIPC, including an explanatory SIPC brochure, contact SIPC at 1-202-371-8300 or visit www.sipc.org.

Certain Assets Not Held Here

You may purchase certain assets through us that may be held at another financial institution. Assets not held with us may not be covered by SIPC protection. We may include information about certain assets on this statement solely as a service to you and are not responsible for information provided by external sources. Generally, any financial institution that holds securities is responsible for year-end reporting (e.g., Forms 1099) and separate periodic statements, which may vary from our information due to different reporting periods. In the case of networked mutual funds, we perform all year-end tax reporting.

Total Income

Total income, as used in the income summaries, represents dividends and/or interest on securities we receive on your behalf and credit to your account(s) during the calendar year. We report dividend distributions and taxable bond interest credited to your account to the

IRS. The totals we report may differ from those indicated as "This Year" figures on the last statement for the calendar year. Only information on Forms 1099 should be used for tax reporting. In the case of Corporations, Real Estate Investment Trusts (REITs), Master Limited Partnerships, Regulated Investment Companies and Unit Investment Trusts, some sponsors may reclassify the distribution to a different tax type for year-end reporting.

Transaction Dates and Conditions

Transactions display trade date and settlement date. Transactions are included on this statement on trade date basis (excluding BDP and MMFs). Trades that have not settled as of statement month end will also be displayed in the "Unsettled Purchases/Sales Activity" section. Upon written request, we will give you the date and time of a transaction and the name of the other party to a transaction. We and/or our affiliates may accept benefits that constitute payment for order flow. Details regarding these benefits and the source and amount of any other remuneration received or to be received by us in connection with any transaction will be furnished upon written request.

Tax and Legal Disclosure

We do not provide legal or tax advice. Please consult your own tax advisor.

HOLDINGS

This section reflects positions purchased/sold on a trade date basis. "Market Value" and "Unrealized Gain/(Loss)" may not reflect the value that could be obtained in the market. Your actual investment return may differ from the unrealized gain/(loss) displayed. Fixed Income securities are sorted by maturity or pre-refunding date, and alphabetically within date. Estimated Annual Income a) is calculated on a pre-tax basis, b) does not include any reduction for applicable non-US withholding taxes, c) may include return of principal or capital gains which could overstate such estimates, and d) for holdings that have a defined maturity date within the next 12 months, is reflected only through maturity date. Actual income or yield may be lower or higher than the estimates. Current Yield is an estimate for informational purposes only. It reflects the income generated by an investment, and is calculated by dividing the total estimated annual income by the current market value of the entire position. It does not reflect changes in its price. Structured Investments, identified on the Position Description Details line as "Asset Class: Struct Inv," may appear in various statement product categories. When displayed, the accrued interest, annual income and current yield for those with a contingent income feature (e.g., Range Accrual Notes or Contingent Income Notes) are estimates and assume specified accrual conditions are met during the relevant period and payment in full of all contingent interest. For Floating Rate Securities, the accrued interest, annual income and current yield are estimates based on the current floating coupon rate and may not reflect historic rates within the accrual period.

Tips on Protecting Yourself from Fraudulent Account Activity

The protection of client data is of the utmost importance to us. Scams are on the rise, and they have become more sophisticated. Please remember to never share your personal information including account verification codes, account numbers, passwords or social security numbers with anyone you do not personally know.

Please be cautious opening attachments, clicking on links, or allowing external access to your computer. Scammers will be aggressive and create a sense of urgency. Scammers will promise unbelievable returns using crypto currency investing or sweepstakes/lottery. Scammers will use social media apps to build trust and then make sudden requests for money due to a hardship or emergency.

If you have any questions regarding scams or believe that you are a victim of a scam, please contact us or call 888-454-3965 to report online fraud or security concerns.

FINRA RULE 2264 - MARGIN DISCLOSURE

Morgan Stanley Smith Barney LLC ("Morgan Stanley") is furnishing this information to you to provide some basic facts about purchasing securities on margin. Securities purchased on margin are Morgan Stanley's collateral for the loan to you. If the securities in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, Morgan Stanley can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held with Morgan Stanley, to maintain the required equity in the account. It is important that you fully understand the risks involved in trading securities on margin.

These risks include the following:

- You can lose more funds than you deposit in the margin account.
- Morgan Stanley can force the sale of securities or other assets in your account(s).
- Morgan Stanley can sell your securities or other assets without contacting you.
- If Morgan Stanley takes action to meet a margin call on your behalf, you will not have the ability to choose which securities are liquidated.
- Morgan Stanley can increase your "house" maintenance margin requirements at any time and is not required to provide you advance written notice.
- Morgan Stanley may change margin requirements at any time without prior notice and call for additional collateral, including without limitation on an intraday basis.
- You are not entitled to an extension of time on a margin call.

FINRA RULE 2266 - SIPC INFORMATION

SIPC and Other Coverage. Morgan Stanley is a member of SIPC, which protects securities customers of its members up to \$500,000 (including \$250,000 for claims of cash). SEA RULE 606 - NOTICE OF AVAILABILITY OF ORDER ROUTING INFORMATION

Morgan Stanley prepares quarterly reports describing its order routing practices for nondirected orders routed to a particular venue for execution. These reports are publicly available at etrade.com. Morgan Stanley will furnish a written copy of the quarterly report on request. In addition, Morgan Stanley will provide on request more-detailed information related to the routing of any order in the six months prior to the request, including the identity of the venue to which the customer's orders were routed for execution, whether the orders were directed or nondirected orders, and the time of any transactions that resulted from such orders.

SEA RULE 607 - PAYMENT FOR ORDER FLOW DISCLOSURE

Morgan Stanley takes a number of factors into consideration in determining where to route customers' orders, including the speed of execution, price improvement opportunities (executions at prices superior to the then prevailing inside market), automatic execution guarantees, the availability of efficient and reliable order-handling systems, the level of service provided, the cost of executing orders, and whether it will receive remuneration from particular broker-dealers and market centers for routing customer orders to them for execution. Morgan Stanley receives remuneration, generally in the form of cash payments and rebates, from particular broker-dealers and market centers for directing customer orders in securities to them for execution.
